Employee Portal User Guide

Self-service guide for every team member

AYROLL HR MANAGEMENT SYSTEM

Documentation edition | July 2026

Confidential " for authorised users only

Introduction

The Employee Portal lets staff manage day-to-day HR tasks without contacting admin. Sign in with Employee ID and password (or face login if enabled). Managers get extra team features.

Document scope

- Portal: Employee Portal
- Product: Payroll HR Management System
- Modules documented: 23
- Audience: All employees

Key workflows

These diagrams show how common tasks flow through the system.

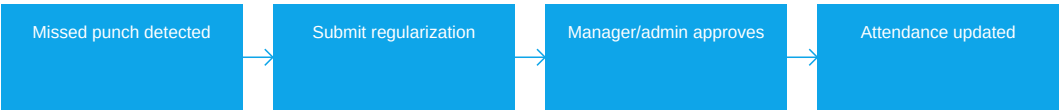

Apply for leave

Download salary slip

Thank you for using Payroll HR Management System

For setup and technical configuration, refer to your system administrator.

Support checklist

- Ensure attendance is synced before monthly payroll.
- Keep employee documents verified for compliance.
- Review pending approvals daily to avoid payroll delays.
- Configure SMTP in Settings for slip email delivery.
- Employees should use the latest portal password policy.
